

# High School-to-College Success Report

---

Illinois

2006-2008 Freshmen

**ACT Code: 1158**

**WESTERN ILLINOIS UNIVERSITY  
1 UNIVERSITY CIRCLE**

**MACOMB, IL 61455**

## Report Overview

### Introduction

The charts and tables in this report describe performance indicators for the ACT-tested public high school graduates of 2006-2008 who attended a public postsecondary institution in Illinois in fall 2006-2008. Suggested next steps are provided to help guide your thinking as you work to improve the academic development of students and their success in college.

The importance of academic preparation for college or work is greater than ever today. Sixty-eight percent of the top 50 occupations require postsecondary education. Clearly, students need to be ready for education beyond high school, and the goal of this report is to promote actions that will assist all students in being prepared for postsecondary education.

To measure academic preparation, this report uses ACT College Readiness Benchmark Scores and College Readiness Standards Score Ranges. These measures are explained below. This report also refers to taking core coursework which is defined as 4 or more years of English, 3 or more years of mathematics beyond pre-algebra, and 3 or more years of science and social studies.

### What are College Readiness Benchmark Scores?

College Readiness refers to the level of student preparation needed to be ready to succeed—without remediation—in an introductory level course at a two or four-year institution, trade school, or technical school. A College Readiness Benchmark Score is the minimum score needed on an ACT subject-area test to indicate a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in the corresponding credit-bearing college courses. The corresponding credit-bearing college course used to determine College Readiness Benchmark Scores for English was College English Composition, for Math was College Algebra, for Reading was Social Studies, and for Science was College Biology. These scores were empirically derived based on the actual performance of students in these college courses.

### What are College Readiness Standards (CRS) and CRS Score Ranges?

College Readiness Standards (CRS) are detailed research-based descriptions of the skills and knowledge associated with what students are likely to know and to be able to do based on their PLAN and/or ACT test scores. For each content area - English, mathematics, reading, and science - Standards are provided for score ranges along a scale common to the ACT (1-36); the ranges are 1-15, 16-19, 20-23, 24-27, 28-32, and 33-36. These ranges are CRS Score Ranges.

## Chart and Table Topics Included in This Report

The charts and tables in this report describe performance indicators for the ACT-tested public high school graduates of 2006-2008 who attended a public postsecondary institution in Illinois in fall 2006-2008. Each chart and table adds to a larger understanding of your students' academic strengths and weaknesses. Some topical questions are listed below with references to the relevant report charts and tables.

- How did first year college grade average for our students compare to those statewide and of other subset populations?  
(See Charts 1, 5, 6, 7b, 9 and Tables 1, 2, 3, 4, 5, 6, 8)
- Did students who achieve ACT College Readiness Benchmark Scores earn higher freshmen grades?  
(See Chart 2 and Table 3)
- How important was rigorous preparation in high school mathematics for success during the first year of college?  
(See Chart 3 and Table 4)
- How important was rigorous preparation in high school science for success during the first year of college?  
(See Chart 4 and Table 5)
- How did the ACT Composite scores of our students compare to those statewide and of other subset populations?  
(See Charts 7a, 8, and Table 1, 2, 7, 8)
- By ACT College Readiness Standards Score Ranges, what were the first-year college GPAs of our students?  
(See Charts 5, 6, and Table 6)
- What percent of our enrolled students completed college preparatory (core) coursework?  
(See Chart 7a, 7b, and Table 2)
- Were students who took the recommended college preparatory (core) coursework more successful during their first-year at college?  
(See Chart 7b and Table 2)
- How many of our ACT-tested students were assigned to developmental coursework, and what were their ACT scores and first year college GPAs?  
(See Charts 1, 7a, 7b, 8, and Table 7)
- How many of our students persisted into year 2 and what are the academic indicators for these students?  
(See Charts 9, 10, and Table 8)

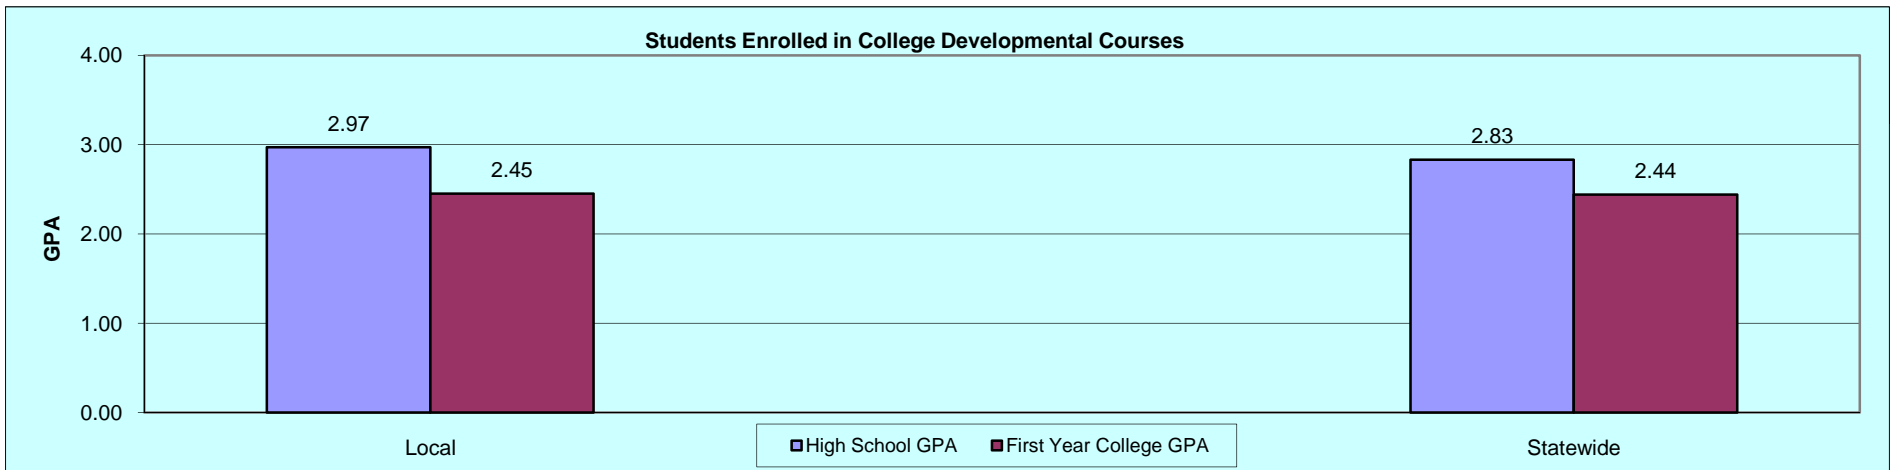

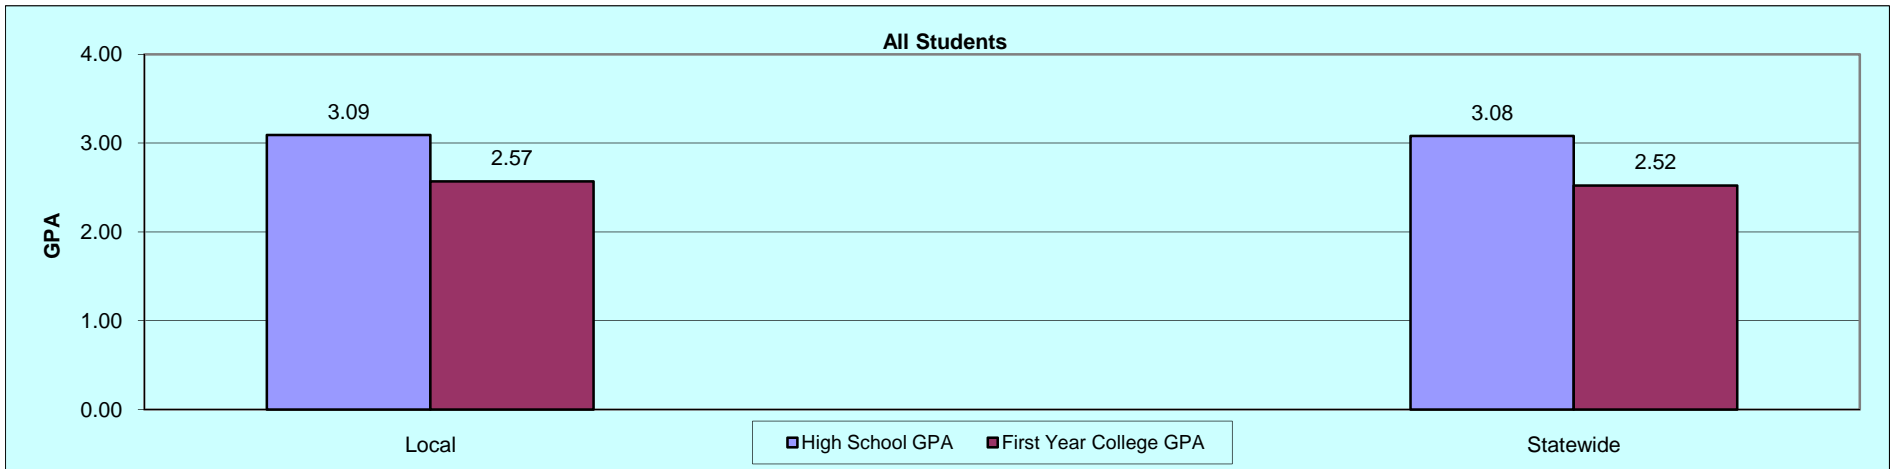

### Table of Contents for Charts

High School Preparation and Success		Page	College Success and Persistence		Page
Chart 1:	High School and First Year College GPA for Local and Statewide Students - All Students and Those Assigned to Developmental Courses	1	Chart 9:	Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to Same Campus in Year 2 - First Year College GPA	10
Chart 2:	Average First Year College GPA for Students Who Did/Did Not Earn ACT College Readiness Benchmark Scores Across Test Subjects	2	Chart 10:	Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to Same Campus in Year 2 - ACT Composite Score and High School GPA	11
Chart 3:	Percent 'Below' and 'At or Above' a First Year College GPA of 2.50 by Mathematics Course Sequence Patterns Studied in High School	3			
Chart 4:	Percent 'Below' and 'At or Above' a First Year College GPA of 2.50 by Science Course Sequence Patterns Studied in High School	4			
Chart 5:	Local and Statewide First Year College GPAs by ACT College Readiness Standards Score Ranges	5			
<b>College Readiness and Success</b>					
Chart 6:	First Year College GPA by ACT College Readiness Standards Score Ranges and Test Subjects	6			
Chart 7a:	Local and Statewide ACT Composite Test Scores for All Students and for Students Taking Developmental Courses by Core Course-Taking	7			
Chart 7b:	Local and Statewide First Year College GPA for All Students and for Students Taking Developmental Courses by Core Course-Taking	8			
Chart 8:	Local and Statewide Average ACT Scores for Students Assigned to Developmental Coursework in College Across Test Subjects	9	Note:	No information is provided in cases where chart student count is less than 10.	

### Table of Contents for Appendix Tables

	Page		Page
Appendix: Detailed Summary Information by Campus and Selected References and Resources	13	Table 8: Summary Statistics for Your ACT-tested Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2	21
Table 1: Summary Statistics for Your ACT-tested Students Compared to All Enrolled ACT-tested Students Statewide	14		
Table 2: Summary Statistics for Your ACT-tested Students Who Did/Did Not Take Core Coursework	15		
Table 3: Average First Year GPA and Hours Completed for Your ACT-tested Students by College Readiness Benchmark Scores	16	<b>Suggested References for Developing College Readiness Skills</b>	
Table 4: First Year College GPA by Mathematics Course Patterns Taken by Your ACT-tested Students	17	A. On Course for Success: A Close Look at Selected High School Courses That Prepare All Students for College	23
Table 5: First Year College GPA by Science Course Patterns Taken by Your ACT-tested Students	18	B. Preparing All High School Students for College and Work: What High-Performing High Schools are Teaching	23
Table 6: Average First Year GPA for Your ACT-tested Students by ACT College Readiness Score Ranges	19	C. Crisis at the Core: Preparing All Students for College and Work	23
Table 7: Summary Statistics for Your ACT-tested Students Who Were Identified as Needing Developmental Coursework	20	D. College Readiness Standards: Descriptions of the Skills and Knowledge Associated with EPAS Test Scores	23
		Note: No information is provided in cases when student count is less than 10.	

Chart 1: High School and First Year College GPA for Local and Statewide Students - All Students and Those Assigned to Developmental Courses

**What This Chart Tells You:**

Students who were assigned to developmental coursework generally earn lower grades in both high school and college. The need for developmental courses should be less if students take the recommended college preparatory courses: 4 or more years of English, 3 or more years of mathematics beyond pre-algebra, 3 or more years of science and social studies. Comparisons by high school are shown in Tables 2 and 7 (Appendix).

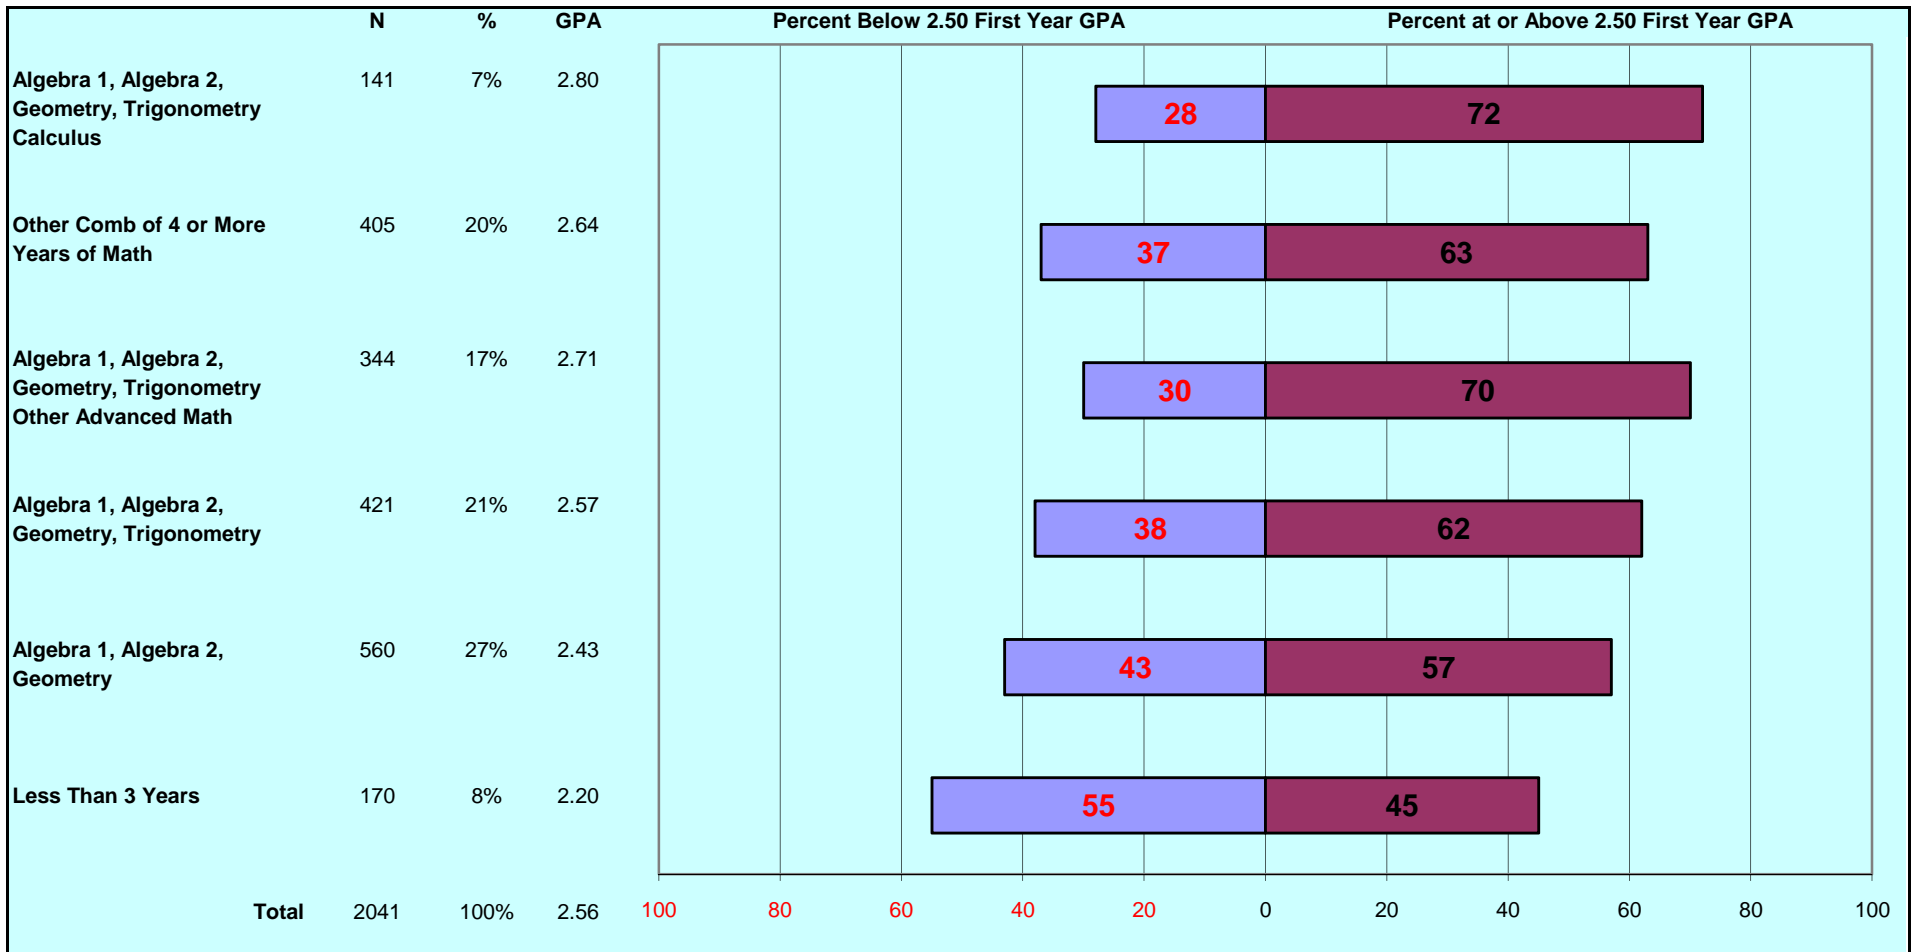

Chart 2: Average First Year College GPA for Students Who Did/Did Not Earn ACT College Readiness Benchmark Scores Across Test Subjects

**What This Chart Tells You:**

Students who earned the ACT College Readiness Benchmark Scores in high school earned higher freshmen grades than those who fell short of the benchmark scores. Comparisons by high school are shown in Table 3 (Appendix). The benchmark scores are associated with a 50% or more chance of earning a B or better in selected courses (see Appendix pg. 23).

Chart 3: Percent 'Below' and 'At or Above' a First Year College GPA of 2.50 by Mathematics Course Sequence Patterns Studied in High School

**What This Chart Tells You:**

Most students who took more rigorous mathematics courses in high school earn higher freshmen grades. Students who take more than 3 years of mathematics beyond pre-algebra in high school are more successful in college. See the reference to *On Course for Success* (Appendix pg. 23). Comparisons by high school are shown in Table 4 (Appendix).

Chart 4: Percent 'Below' and 'At or Above' a First Year College GPA of 2.50 by Science Course Sequence Patterns Studied in High School

**What This Chart Tells You:**

Students who took 3 or more year of science tend to earn higher grades in college. Comparisons by high school are shown in Table 5 (Appendix).

Chart 5: Local and Statewide First Year College GPAs by ACT College Readiness Standards Score Ranges

**What This Chart Tells You:**

Students in higher ACT College Readiness Standards (CRS) Score Ranges tend to earn higher college freshmen grades. College freshmen GPAs earned by your graduates and students statewide are shown by CRS Score Ranges. Comparisons by high school are shown in Table 6 (Appendix).

Chart 6: First Year College GPA by ACT College Readiness Standards Score Ranges and Test Subjects

**What This Chart Tells You:**

Across all test subjects, students with higher scores in each of the ACT College Readiness Standards (CRS) ranges tend to earn higher first year college grades. ACT scores are directly associated with freshmen success in college. Comparisons by high school are shown in Table 6 (Appendix).

Chart 7a: Local and Statewide ACT Composite Test Scores for All Students and for Students Taking Developmental Courses by Core Course-Taking

**What This Chart Tells You:**

On average, students who completed the recommended core coursework earned higher ACT scores, higher college freshman grades, and are less likely to be assigned to developmental courses. Students assigned to developmental courses earned lower scores and grades compared to all students. The percentage of students listed as developmental are based on the total number in the core and non-core reference groups, respectively. Comparisons by high school are shown in Table 2 (Appendix).

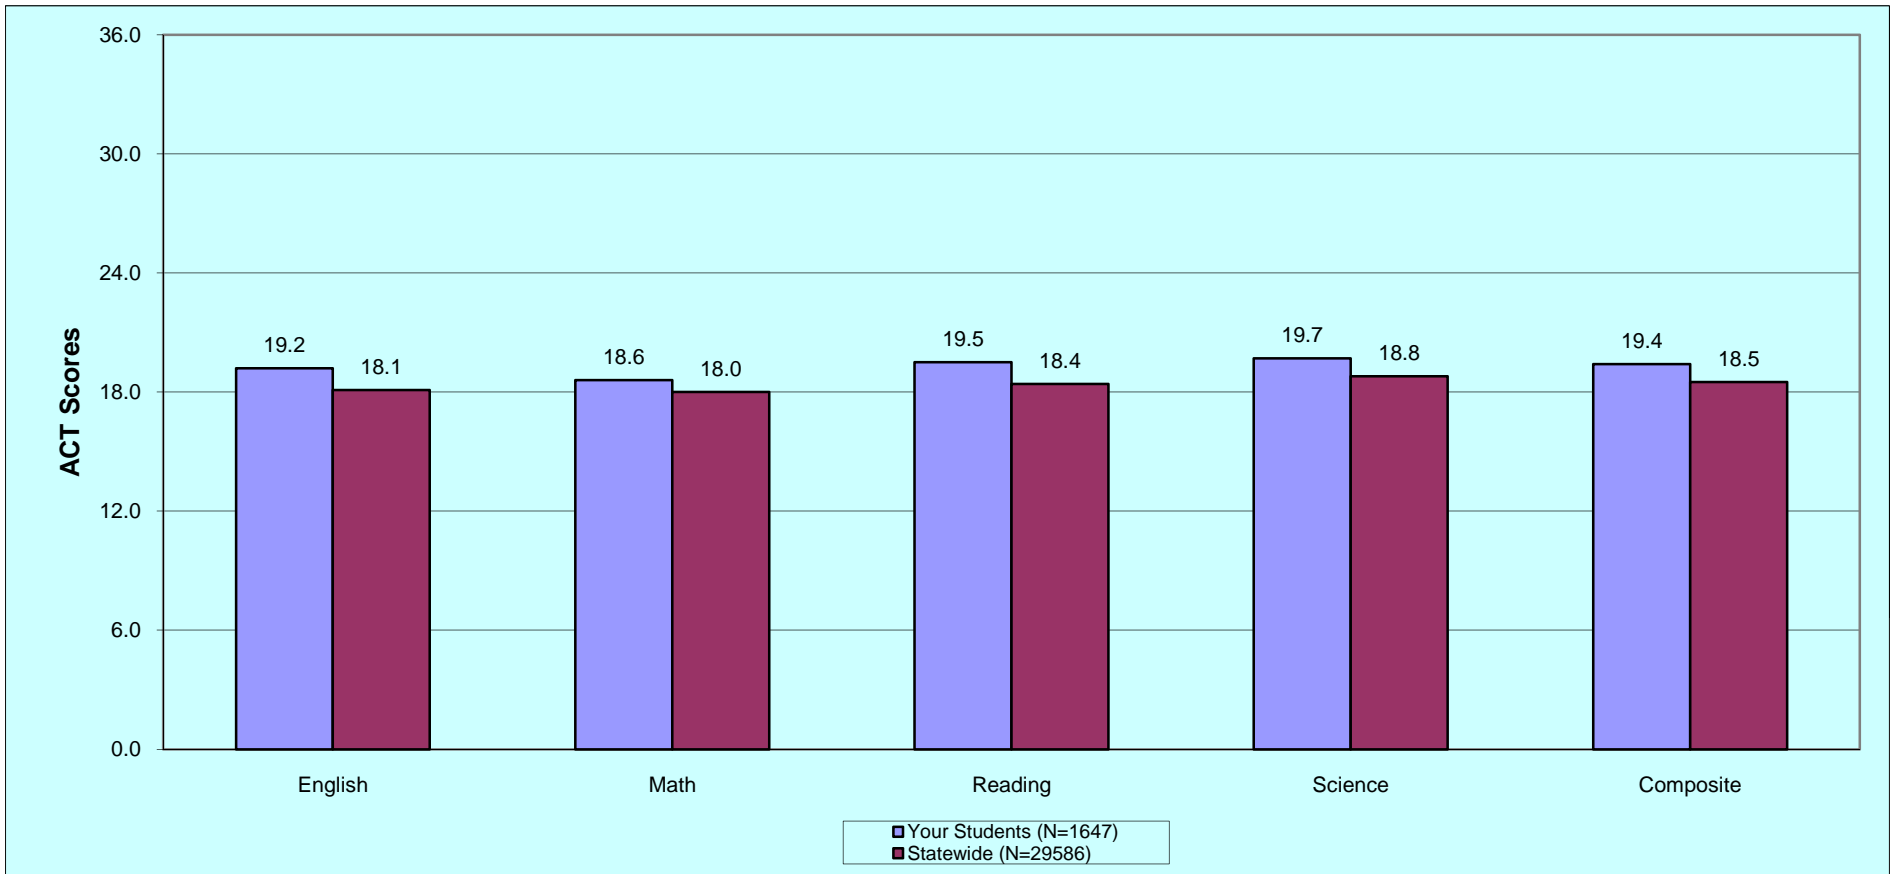

Chart 7b: Local and Statewide First Year College GPA for All Students and for Students Taking Developmental Courses by Core Course-Taking

**What This Chart Tells You:**

On average, students who completed the recommended core coursework earned higher ACT scores, higher college freshman grades, and are less likely to be assigned to developmental courses. Students assigned to developmental courses earned lower scores and grades compared to all students. The percentage of students listed as developmental are based on the total number in the core and non-core reference groups, respectively. Comparisons by high school are shown in Table 2 (Appendix).

Chart 8: Local and Statewide Average ACT Scores for Students Assigned to Developmental Coursework in College Across Test Subjects

**What This Chart Tells You:**

Students who were identified as needing developmental coursework in college tend to earn lower ACT scores than those of all freshmen and are less likely to have taken the recommended rigorous coursework in high school. Comparisons by high school are shown in Table 2 and 7 (Appendix).

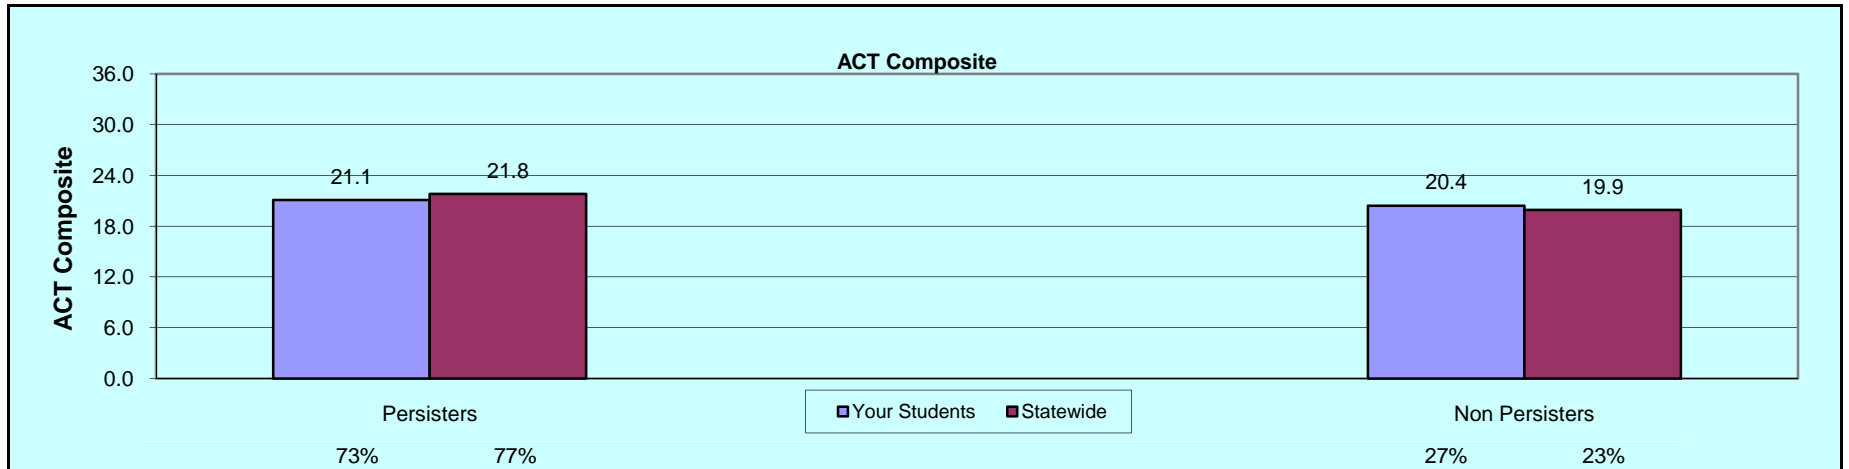

Chart 9: Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2 - First Year College GPA

**What This Chart Tells You:**

This chart enables staff to compare your students to students statewide using first year GPA. Comparisons can be made for those who persisted into year 2, as well as those who did not return for year 2. Comparisons by high school are shown in Tables 1 and 8 (Appendix).

Chart 10: Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2  
- ACT Composite Scores and High School GPA

**What This Chart Tells You:**

Students who completed the freshman year of college and who returned for the second year tend to have higher ACT scores and higher high school grades than those who did not return for year 2. Comparisons by high school are shown in Table 8 (Appendix).

# Appendix

**Detailed Summary Information by Campus**

**Selected References and Resources**

**Table 1: Summary Statistics for Your ACT-tested Students Compared to All Enrolled ACT-tested Students Statewide**

**Remarks:** Table 1 allows you to address the following questions and evaluate the readiness of your students for college. Were average ACT composite scores for your students similar to all freshman students? Did your students tend to enroll in less/more credit hours? How did your students compare with other freshmen on first-year GPA?

Table 2: Summary Statistics for Your ACT-tested Students Who Did/Did Not Take Core Coursework

**Remarks:** On average, students who complete ACT recommended college preparatory coursework in high school (core) earn higher ACT composite scores, tend to earn more credit hours during the first year of college, and earn higher first year grades in college. Students who take core coursework in high school are also less likely to require developmental coursework during the first year of college. Proper college-readiness is strongly related to first-year college success. Every student should be challenged to take the necessary courses to be ready for college and the workplace.

Table 2: Summary Statistics for Your ACT-tested Students Who Did/Did Not Take Core Coursework

**Remarks:** On average, students who complete ACT recommended college preparatory coursework in high school (core) earn higher ACT composite scores, tend to earn more credit hours during the first year of college, and earn higher first year grades in college. Students who take core coursework in high school are also less likely to require developmental coursework during the first year of college. Proper college-readiness is strongly related to first-year college success. Every student should be challenged to take the necessary courses to be ready for college and the workplace.

Table 2: Summary Statistics for Your ACT-tested Students Who Did/Did Not Take Core Coursework

**Remarks:** On average, students who complete ACT recommended college preparatory coursework in high school (core) earn higher ACT composite scores, tend to earn more credit hours during the first year of college, and earn higher first year grades in college. Students who take core coursework in high school are also less likely to require developmental coursework during the first year of college. Proper college-readiness is strongly related to first-year college success. Every student should be challenged to take the necessary courses to be ready for college and the workplace.

Table 2: Summary Statistics for Your ACT-tested Students Who Did/Did Not Take Core Coursework

**Remarks:** On average, students who complete ACT recommended college preparatory coursework in high school (core) earn higher ACT composite scores, tend to earn more credit hours during the first year of college, and earn higher first year grades in college. Students who take core coursework in high school are also less likely to require developmental coursework during the first year of college. Proper college-readiness is strongly related to first-year college success. Every student should be challenged to take the necessary courses to be ready for college and the workplace.

Table 3: Average First Year GPA and Hours Completed for Your ACT-tested Students by ACT College Readiness Benchmark Scores

**Remarks:** As shown in the table, students who obtained the benchmark scores tended to earn higher grades in college and enrolled in more credit hours. Students become ready for college by taking rigorous coursework--especially in mathematics and science. Students who earn an English score of 18 or higher have at least a 50% chance of earning a B or higher in freshmen English composition. Students who earn a mathematics score of 22 or higher have a 50% chance or higher of earning a B or higher in college algebra. Students who earn a reading score of 21 or higher have a 50% chance or higher of earning a B or higher in college level social studies. Students who earn a science score of 24 or higher have a 50% chance or higher of earning a B or higher in college biology. Suggestions for improving ACT scores and college readiness skills are contained in the references given in the Appendix (pg. 23).

Table 3: Average First Year GPA and Hours Completed for Your ACT-tested Students by ACT College Readiness Benchmark Scores

**Remarks:** As shown in the table, students who obtained the benchmark scores tended to earn higher grades in college and enrolled in more credit hours. Students become ready for college by taking rigorous coursework--especially in mathematics and science. Students who earn an English score of 18 or higher have at least a 50% chance of earning a B or higher in freshmen English composition. Students who earn a mathematics score of 22 or higher have a 50% chance or higher of earning a B or higher in college algebra. Students who earn a reading score of 21 or higher have a 50% chance or higher of earning a B or higher in college level social studies. Students who earn a science score of 24 or higher have a 50% chance or higher of earning a B or higher in college biology. Suggestions for improving ACT scores and college readiness skills are contained in the references given in the Appendix (pg. 23).

Table 3: Average First Year GPA and Hours Completed for Your ACT-tested Students by ACT College Readiness Benchmark Scores

**Remarks:** As shown in the table, students who obtained the benchmark scores tended to earn higher grades in college and enrolled in more credit hours. Students become ready for college by taking rigorous coursework--especially in mathematics and science. Students who earn an English score of 18 or higher have at least a 50% chance of earning a B or higher in freshmen English composition. Students who earn a mathematics score of 22 or higher have a 50% chance or higher of earning a B or higher in college algebra. Students who earn a reading score of 21 or higher have a 50% chance or higher of earning a B or higher in college level social studies. Students who earn a science score of 24 or higher have a 50% chance or higher of earning a B or higher in college biology. Suggestions for improving ACT scores and college readiness skills are contained in the references given in the Appendix (pg. 23).

Table 3: Average First Year GPA and Hours Completed for Your ACT-tested Students by ACT College Readiness Benchmark Scores

**Remarks:** As shown in the table, students who obtained the benchmark scores tended to earn higher grades in college and enrolled in more credit hours. Students become ready for college by taking rigorous coursework--especially in mathematics and science. Students who earn an English score of 18 or higher have at least a 50% chance of earning a B or higher in freshmen English composition. Students who earn a mathematics score of 22 or higher have a 50% chance or higher of earning a B or higher in college algebra. Students who earn a reading score of 21 or higher have a 50% chance or higher of earning a B or higher in college level social studies. Students who earn a science score of 24 or higher have a 50% chance or higher of earning a B or higher in college biology. Suggestions for improving ACT scores and college readiness skills are contained in the references given in the Appendix (pg. 23).

Table 4: First Year College GPA by Mathematics Course Patterns Taken by Your ACT-tested Students

**Remarks:** Students who elect to take more rigorous coursework in mathematics tend to earn higher ACT mathematics scores, higher ACT composite scores, and higher first-term college grades. ACT recommends that all high school students complete 3 or more years of mathematics beyond pre-algebra in high school. Many colleges and universities now want students to have completed 4 years of mathematics while in high school. Many academic majors in the Associate of Science programs in community colleges also demand a strong background in high school mathematics. Encourage all students to take 4 years of mathematics in high school.

Table 4: First Year College GPA by Mathematics Course Patterns Taken by Your ACT-tested Students

**Remarks:** Students who elect to take more rigorous coursework in mathematics tend to earn higher ACT mathematics scores, higher ACT composite scores, and higher first-term college grades. ACT recommends that all high school students complete 3 or more years of mathematics beyond pre-algebra in high school. Many colleges and universities now want students to have completed 4 years of mathematics while in high school. Many academic majors in the Associate of Science programs in community colleges also demand a strong background in high school mathematics. Encourage all students to take 4 years of mathematics in high school.

Table 4: First Year College GPA by Mathematics Course Patterns Taken by Your ACT-tested Students

**Remarks:** Students who elect to take more rigorous coursework in mathematics tend to earn higher ACT mathematics scores, higher ACT composite scores, and higher first-term college grades. ACT recommends that all high school students complete 3 or more years of mathematics beyond pre-algebra in high school. Many colleges and universities now want students to have completed 4 years of mathematics while in high school. Many academic majors in the Associate of Science programs in community colleges also demand a strong background in high school mathematics. Encourage all students to take 4 years of mathematics in high school.

Table 5: First Year College GPA by Science Course Patterns Taken by Your ACT-tested Students

**Remarks:** Students who elect to take a more rigorous pattern of science courses earn higher grades during the first-term (fall) of college. ACT recommends that students take at least 3 years of science in high school. The ACT Science benchmark score of 24 is associated with a 50% chance or higher of earning a B or higher in college Biology. See "On Course for Success," referenced in the Appendix (pg. 23), for the science skills needed to be successful in college.

Table 5: First Year College GPA by Science Course Patterns Taken by Your ACT-tested Students

**Remarks:** Students who elect to take a more rigorous pattern of science courses earn higher grades during the first-term (fall) of college. ACT recommends that students take at least 3 years of science in high school. The ACT Science benchmark score of 24 is associated with a 50% chance or higher of earning a B or higher in college Biology. See "On Course for Success," referenced in the Appendix (pg. 23), for the science skills needed to be successful in college.

Table 6: Average First Year GPA for Your ACT-tested Students by ACT College Readiness Standards Score Ranges

**Remarks:** The ACT College Readiness Standards (CRS) Score Ranges are directly associated with average first semester grade point average. Higher scores are associated with higher grades. To help secondary school students develop better educational backgrounds, see the "College Readiness Standards", referenced in the Appendix. Depending on the score range, suggestions are provided to help students strengthen their skills to reach the next score range level. All secondary students can develop better college readiness by taking more rigorous courses in high school, which in turn leads to higher ACT test scores and better preparation for college.

Table 7: Summary Statistics for Your ACT-tested Students Who Were Identified as Needing Developmental Coursework

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. The data in this table enable staff to determine how many ACT-tested graduates were assigned to one or more developmental courses at each postsecondary institution. The content of courses taken in high school courses should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

Table 7: Summary Statistics for Your ACT-tested Students Who Were Identified as Needing Developmental Coursework

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. The data in this table enable staff to determine how many ACT-tested graduates were assigned to one or more developmental courses at each postsecondary institution. The content of courses taken in high school courses should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

Table 7: Summary Statistics for Your ACT-tested Students Who Were Identified as Needing Developmental Coursework

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. The data in this table enable staff to determine how many ACT-tested graduates were assigned to one or more developmental courses at each postsecondary institution. The content of courses taken in high school courses should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

**Table 8: Summary Statistics for Your ACT-tested Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

**Table 8: Summary Statistics for Your ACT-tested Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

**Table 8: Summary Statistics for Your ACT-tested Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to the Same Campus in Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

- First Year College GPA**

**Chart 3b: Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to Any Public Institution for Year 2  
- ACT Composite Scores and High School GPA**

**Table 3: Summary Statistics for Your ACT-tested Students Who Did/Did Not Return to Any Public Institution for Year 2**

Addendum Chart 1: Local and Statewide Average ACT Scores for Students Assigned to Developmental Coursework in Language Arts Across Test Subjects

**What This Chart Tells You:**

Students who were assigned to developmental coursework in language arts tend to earn lower ACT scores than those of all freshmen and are less likely to have taken the recommended rigorous coursework in high school. Comparisons by high school are shown in Addendum Table 1.

**Addendum Table 1: Average ACT Scores for Your Students Who Were Assigned to Developmental Coursework in Language Arts**

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. This table shows the number of students that were assigned to developmental coursework in reading at each postsecondary institution. The content of courses taken in high school should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

**Addendum Table 1: Average ACT Scores for Your Students Who Were Assigned to Developmental Coursework in Language Arts**

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. This table shows the number of students that were assigned to developmental coursework in reading at each postsecondary institution. The content of courses taken in high school should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

Addendum Chart 2: Local and Statewide Average ACT Scores for Students Assigned to Developmental Coursework in Mathematics Across Test Subjects

**What This Chart Tells You:**

Students who were assigned to developmental coursework in mathematics tend to earn lower ACT scores than those of all freshmen and are less likely to have taken the recommended rigorous coursework in high school. Comparisons by high school are shown in Addendum Table 2.

**Addendum Table 2: Average ACT Scores for Your Students Who Were Assigned to Developmental Coursework in Mathematics**

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. This table shows the number of students that were assigned to developmental coursework in mathematics at each postsecondary institution. The content of courses taken in high school should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

**Addendum Table 2: Average ACT Scores for Your Students Who Were Assigned to Developmental Coursework in Mathematics**

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. This table shows the number of students that were assigned to developmental coursework in mathematics at each postsecondary institution. The content of courses taken in high school should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

**Addendum Table 2: Average ACT Scores for Your Students Who Were Assigned to Developmental Coursework in Mathematics**

**Remarks:** Colleges have different standards for assigning incoming freshmen to developmental coursework. Generally, lower ACT scores are associated with students assigned to developmental courses. ACT recommends all students take rigorous courses in high school to reduce the risk of being assigned to developmental courses in college. This table shows the number of students that were assigned to developmental coursework in mathematics at each postsecondary institution. The content of courses taken in high school should be designed to help build readiness skills to take college level courses. The "College Readiness Standards" (referenced in the Appendix) provides suggestions for improving college readiness skills.

Addendum Chart 3a: Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to Any Public Institution for Year 2  
- First Year College GPA

**What This Chart Tells You:**

This chart enables staff to compare your students to students statewide using first year GPA. Comparisons can be made for those who persisted into year 2, as well as those who did not return for year 2. Comparisons by campus are shown in Addendum Table 3.

Addendum Chart 3b: Local and Statewide Students Enrolled in Public Postsecondary Institutions Who Did/Did Not Return to Any Public Institution for Year 2  
- ACT Composite Scores and High School GPA

**What This Chart Tells You:**

Students who completed the freshman year of college and who returned for the second year tend to have higher ACT scores and higher high school grades than those who did not return for year 2. Comparisons by campus are shown in Addendum Table 3.

**Addendum Table 3: Summary Statistics for Your ACT-tested Students Who Did/Did Not Return to Any Public Institution for Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

**Addendum Table 3: Summary Statistics for Your ACT-tested Students Who Did/Did Not Return to Any Public Institution for Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

**Addendum Table 3: Summary Statistics for Your ACT-tested Students Who Did/Did Not Return to Any Public Institution for Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.

**Addendum Table 3: Summary Statistics for Your ACT-tested Students Who Did/Did Not Return to Any Public Institution for Year 2**

**Remarks:** Nationally about 25% of first-term college students do not return to the same college in year 2. Persisters tend to have higher ACT scores, higher high school grades, and higher first-year college grades. To increase a student's chances of staying in college, all students need to take rigorous coursework in high school. Such academic preparation leads to higher test scores, better grades, and better college-readiness skills. Suggestions for the proper courses to take in high school and the recommended content covered in those courses are referenced in "College Readiness Standards" referenced in the Appendix.
